WEDNESDAY, MAY 29, 1907.

Preachers ought to be better than other men and most of them are, though now and then one of the number is guilty of gross crime and the world is disposed to throw stones at the profession. There is no sense in this and no justice. They are but men after all and from the first man until now men have been falling from the path of rectitude, and no doubt will continue to do so until the Christ returns and gives us a "new earth wherein dwelleth righteousness".

That will be an interesting parade in Baltimore when the "work horse" of the city are exhibited. There will be no extra fixing up, but they are to appear as in their every day dress. The custom was introduced in London some years ago, and with beneficial results. Owners were encouraged to take care of their horses the year round so that when parade day returned they would be in good trim. The man who mal-treats his horse can't be a good man.

We can no more appreciate the necessity of sending to New York for an accountant to examine the affairs of a Virginia company, any more than we can the necessity of sending to New York for a librarian, or to New Jersey for a farmer to take charge of the Virginia test farm Virginia cannot be so poor in material as to justify any such importations.

When an individual buys that he can't pay for, or undertakes a scheme without money enough to complete it, he is subject of severe criticism but let a magnate, in charge of a corporation undertake the same thing, and he is called a "Napoleon of fin nce."

And now we have a breath of suspicion from the Insurance Department of the State. Sorry, sorry, sorry. Would to Heaven we could have no more suspicion of any branch of our State work. All this is something new and alarming in our history.

Richmond was simply 'immersed' with Baptists, and never was a more gracious, or more generous hospitality dispensed. And surely giving was at the high water mark when one member of the Convention gave $60,000 to Foreign Missions.

Caesar would have "his wife live above suspicion," and so Virginia demands of her Judges, her Corporation Commissioner, her Commissioner of Insurance and all others in authority.

The government spent $300,000 last year in lawyer's fees in efforts at controlling trusts. It would be interesting reading that would give us the profits on the investments.

The controversy over Norfolk hotel charges still waxes warm. Why not publish the figures that the man who runs a car rides may read them?

Deafness cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

A Mineral Water that Defies Drugs

NATURE'S GREAT BLOOD TONIC

The recent drug exposures in this Country have proven to all that deadly poisons and stimulants lurk in many Patent Medicines. You never know when you might be taking some of that class.

Nature has made ample provision for restoring vigor and vitality to humanity, and the public, as well as doctors, resort to Natural Remedies, when all others have failed.

Are you troubled with **Dyspepsia, Nervousness, Malaria, Kidney or Bladder Trouble, Chronic Diarrhoea or Dysentery,** and above all, that dreadful disease **Scrofula,** which has almost baffled human skill, or **Diseases peculiar to Females?**

Piedmont-Bedford Concentrated Iron & Alum Water

Is Nature's Remedy for Nature's Ills. Yes, when you consider that disease comes from impoverished or run down conditions of the system, this Natural Mineral Water furnishes the system what it needs.

The analysis of this Water, shown on the bottle, tells you what **Nature thinks you should take when sick,** and the doctor who reads it will agree.

Do you think the grouping together in this Water of 17 different minerals, which are recognized by medical writers as **most powerful blood tonics,** could have been accidental? Reason answers, NO!

An 18-oz bottle of Piedmont-Bedford Concentrated Iron and Alum water contains all the minerals of 25 gallons of the average natural water—Then **why buy a barrel of water when you can get a bottle of minerals at the trivial cost of one dollar.** The dose is a teaspoonful in a glass of your own spring water.

How this Water acts upon the system is not clearly known. It is judged mainly by its works. It has cured all the diseases numerated above, and many more, evidently through its action as a powerful **BLOOD TONIC.**

We have many valuable certificates, which we will be glad to mail, if you are interested.

Concord

For the past few weeks it seems that the town has been visited by a wave of chills and fever; and never before in the history of the place was there as much sickness as it seems to be now. Medical Analysis pronounces the cause due to the much new earth now being turned up by the Construction Companies on the Belt Line grading, as chills and fever are practically unknown here.

Mrs. J. A. Brooks is out again.

Mrs. J. W. Hilldrup is also much better.

Mesdames J. A. Price and G. D. Morrison, who have both been sick, are somewhat improving.

Messrs. J. H. Steele and J. A. Brooks are still slowly improving.

Mr. T. H. Fisher is preparing to attend the reunion in Richmond.

Mr. W. W. Carson spent Sunday with his people. He is now situated at Crewe, Va.

Miss Annie Steele is suffering very much from a bad throat trouble this week; seems difficult to reach the main trouble.

Prof. J. G Fisher left last Thursday for Pembroke, W Va., where he has accepted a position with the N. & W. Ry.

Mr. Winston McKinney, of Appomattox, was in the village on business Thursday.

Horace Abbott, a colored man, near the village, has recently lost two of his children; seems the cause was due to measles connected with colds.

MONTOONA
is now standing at my farm three quarters of a mile from Appomattox depot I am attending to him myself this season and hope to give the people better service than they had last Spring. Montoona is not only a prize winner himself but has several colts that have won first prizes at Fairs and Horse Shows in all parts of the State. In breeding to Montoona you get a horse that has all the size you want for farm and they hook up and drive good. A great deal of them are good saddlers; taking as a whole they make an ideal farm horse, and when you get the market to sell them they have reputation enough to sell themselves, and will always bring from twenty-five to fifty dollars more than a horse whose breeding is not known or that has none. I am not getting over half the money that the party from whom I got him is charged, and there is not a horse in the State that has as good breeding that is standing for as small a sum. Any one wishing his pedigree can get it by dropping me a postal. I take pleasure in showing him to you at any time, as well as some of his colts.
